请回答所有问题 Please fill in every question with specific answers

1) 请列出你们接受的衣物（要具体写出）
   Please list the specific clothing/textile items you accept in detail.

   中文： 我们接受状态良好的日常衣物与家用纺织品，包括：成人及小孩的衣服、长裤、长短裙、T 恤、床单以及窗帘。

   English: We accept everyday clothing and household textiles in good condition, including: adult and children's clothing, trousers, maxi and mini skirts, T-shirts, bedsheets, and curtains.

2) 列出你们不接受的衣物（要具体写出）
   Please list the specific clothing/textile items you do NOT accept in detail.

   中文：破损有洞、发黄、起毛球、有异味、冬装、日本和服、传统民族服装（如印度或马来传统服饰）、非成套的衣物或头巾（Tudung）。

   English: items with holes, yellowing, pilling, or odors. We also exclude winter wear, Japanese kimonos, traditional costumes (e.g., Indian or Malay traditional attire), incomplete sets, and headscarves (Tudung).

3) “黑名单”物品： 民众最常错误扔进 Yellow Bin 的 Top 5 “不可回收物”是什么？（除了非衣物类的垃圾，在纺织品中，是否坚决拒收发霉衣物、湿毛巾、穿过的内衣裤等？）
   "Blacklist" Items: What are the Top 5 "unrecyclable" items the public most commonly misplaces in the Yellow Bins? (Aside from non-textile trash, do you strictly reject items like moldy clothing, wet towels, or used undergarments?)
   中文： 请注意，Yellow Bin 并非垃圾桶。民众最常错误投放的五大“不可回收物”包括：厨余饭盒、生活垃圾、动物尸体、饮料包装及使用过的塑料袋。此外，我们坚决拒收碎布料、发霉衣物、湿毛巾以及穿过的内衣裤。

   English: Please note that Yellow Bin is not a trash can. The top 5 items commonly misplaced by the public include: food containers, general household waste, animal carcasses, beverage cartons, and used plastic bags. Additionally, we strictly reject fabric scraps, moldy clothing, wet towels, and used undergarments.

4) 投放前的“标准动作”： 如果要引导大众“完美”地准备一袋回收衣物， 有哪些核心要求？（例如：必须干燥、必须用塑料袋封口以防雨水/受潮等）。
Standard Prep Steps: How should we guide the public to "perfectly" prepare a bag of clothes for recycling? What are the core requirements? (e.g., must be completely dry, must be securely tied in a plastic bag to prevent moisture/rain damage, etc.)

中文：确保衣物干燥清洁， 将其整齐放入塑料袋并牢牢封口（防止雨水受潮）， 最后在袋子表面注明内含物品类别。

English: ensure all clothes are clean and dry, place them in a plastic bag and tie it securely (to prevent moisture/rain damage), and label the bag with its contents.

5) “免下车/易卸货”站点： 针对需要处理大量（如 5 袋以上）衣物的受众， 哪 3-5 个站点停车和搬运最方便？
"Drive-Thru / Easy Drop-off" Locations: For users needing to dispose of a large volume of clothing (e.g., 5+ bags), which 3 to 5 locations offer the most convenient parking and unloading access?

中文： 若您有超过 5 袋以上的大量物资， 建议前往以下停车与搬运最方便的站点：阿弥陀佛援助中心（儿童之家）、Kempas 总部或 IOI Mall。

English: For large donations (5+ bags), we recommend the following locations for easy parking and unloading: Amitabha Foundation Children's Home, Kempas HQ, or IOI Mall.

6) 司机是否有固定的时间表去每个 Yellow Bin 收集物资？（例如：每周一、三、五清空一次）。如果有大致的规律， 我们可以通过内容告知受众， 避免他们遇到“桶已满”的情况。
Collection Frequency: Do drivers follow a fixed schedule for clearing each Yellow Bin? (e.g., emptied every Mon, Wed, and Fri). If there is a predictable routine, we can share this to help users avoid arriving at a "full bin."

中文： 我们的司机设有定期清理计划：Villa Bestari 和 Shattuck St. Mary 每 4 天清理一次；Menara TJB、儿童之家、Fairview 国际学校、Taman Daya 及 Aeon 的 Shell 站、The Peak、IOI Mall、Pulai View 和 Mewah View 则固定每周清理一次。

English: Our drivers follow a scheduled routine: Villa Bestari and Shattuck St. Mary are cleared every 4 days. Locations including Menara TJB, Children’s Home, Fairview International School, Shell stations at Taman Daya and Aeon, The Peak, IOI Mall, Pulai View, and Mewah View are cleared once a week.

7) 如要求 Yellow Bin 上门回收，是否有最低重量要求？（例如：要超过 10kg 才可上门回收，如果不达标，是否需要付 pick up fee?）

Door-to-Door Requirements: Is there a minimum weight requirement for door-to-door pick-up services? (e.g., Must exceed 10kg. If the minimum isn't met, is there a pick-up fee applied?)

中文： 上门回收通常要求物资达到 30kg 以上（约 6-7 袋）。若数量较少，建议您顺便将其投放到就近的黄桶箱，或直接送到我们的 HQ 总部。

English: Door-to-door pick-up generally requires a minimum of 30kg (approx. 6-7 bags). For smaller quantities, we encourage you to drop them off at the nearest Yellow Bin or directly at our HQ.

8) 物资去向透明化： 这些不同等级的类别最终会流向哪里？（例如：Grade A 用于慈善捐赠或二手流通以支持运营？Scrap 是打碎做成工业抹布还是建筑隔热材料？）。

Transparency of Item Flow: Where do these different grades of textiles ultimately end up? (e.g., Is Grade A donated to charity or sold as second-hand to fund operations? Is Scrap shredded into industrial rags or used for building insulation?)

中文： 回收物资分为 Grade A、Grade B 和 Scrap（废料）三个等级。其中，废料与被拒绝的布料会转售给修车厂作工业抹布或提供给甘榜居民，实现资源再生。

English: Collected items are categorized into Grade A, Grade B, and Scrap. Scrap materials and rejected textiles are sold to workshops as industrial rags or to villagers, ensuring a circular economy.

9) 每月回收的总重量数据，以及你们的分拣中心是否有有趣的幕后花絮（例如：员工一天平均处理的件数）。

Data & Fun Facts: Can you provide the total weight of textiles collected monthly? Also, do you have any interesting behind-the-scenes facts from the sorting center? (e.g., the average number of items a worker processes per day).

中文： 在我们的分拣中心，每位兼职员工平均每天要处理高达 1 吨的衣物。分拣工作由两人配合完成：一人负责操作压力打包机，另一人负责高效分拣。

English: At our sorting center, a part-time worker processes up to 1 ton of clothing per day. The operation is a team effort: one person operates the baling press while the other handles the sorting.
